The capability of the software product to be diagnosed for deficiencies or causes of failures in the software, or for the parts to be modified to be identified

International Organization for Standardization.

ISO/IEC 9126-1: Software engineering - product quality - part 1: Quality model, 2001.

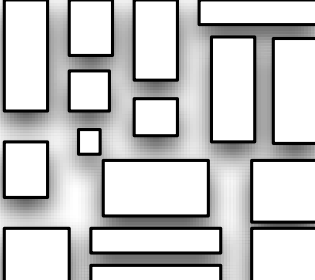

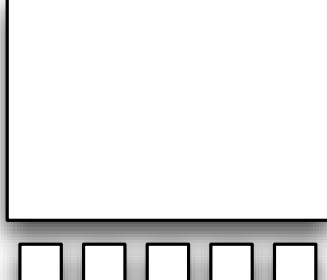

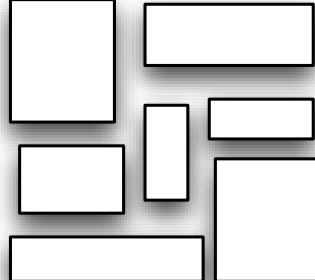

Component Balance

Software Improvement Group

3 | 9

| | | | | |
|----------------------------|---|---|---|---|
| |  |  |  |  |
| System Breakdown: | 0 | 0.1 | 0.8 | 0.8 |
| Component Size Uniformity: | x | x | x | x |
| Component Balance: | 0 | 0.08 | 0.16 | 0.64 |

System Breakdown

How many components are 'normal'?

Software Improvement Group

4 | 9

| | Java | .NET | C/C++ | Total |
|-------------|------|------|-------|-------|
| Industry | 35 | 19 | 5 | 59 |
| Open source | 17 | 4 | 6 | 27 |
| Total | 52 | 23 | 11 | 86 |

Component Size Uniformity

Existing work

5 | 9

Size Distribution metrics:

Gini coefficient (Gini)

C. Gini. Measurement of inequality of income. Economic Journal, 31:22–43, 1921.

Module Size Uniformity Index (MSUI)

S. Sarkar, G. M. Rama, and A. C. Kak. API-based and information- theoretic metrics for measuring the quality of software modularization. IEEE Transactions of Software Engineering, 33(1):14–32, 2007.

Evaluation

Making the right choices

Quantitative

Compare ratings given by experts with values of metric

| System | Language | C | KLOC | Rating |
|--------|----------|----|------|--------|
| A | Java | 8 | 53 | 2 |
| B | Java | 10 | 153 | 3 |
| C | VB.NET | 2 | 87 | 2.25 |
| D | C# | 11 | 22 | 2 |
| E | C# | 9 | 82 | 2 |
| F | Java | 5 | 273 | 3 |
| G | Java | 5 | 64 | 2.5 |
| H | Java | 51 | 333 | 1 |
| I | Java | 5 | 35 | 3.5 |
| J | Java | 5 | 25 | 3 |
| K | Java | 11 | 145 | 2 |
| L | Java | 14 | 512 | 2 |
| M | C# | 16 | 125 | 2 |
| N | Java | 9 | 197 | 5 |

Qualitative

Case-study on value of metric for Checkstyle

- An empirical exploration of how systems are decomposed into top-level components
- A metric to measure the balance of components which is usable across all life-cycle phases of a project
- The metric is correlated with the opinion of experts about the analyzability of a software system

Future Work

Combination with dependencies
